

## Memory Pill (J. LeDoux)

---

Took a stroll through my brain  
Oh what a cluttered place  
My old neurons  
Low on synaptic space  
Stuff in there that I need  
To erase

*Chorus:*

Just give me a pill, Oh yes oh please  
Just give me a pill, Wash away my memories

Birth trauma and childhood stress  
Chicken pox, what a mess  
Baby sitters and nuns  
Priests to whom I confessed  
Old girlfriends, algebra  
Playground bullies and achievement tests

Each time I remember  
I'll take a pill  
Block that storage  
Make my memory null

*Chorus*

*Chorus*
