

Mind Body Problem (J. LeDoux)

Chorus:

I've got a mind body problem, I don't know what to do
I got a mind body problem, I don't know what to do
My body wants you so, but my mind says no

You said you'd always love me, to me you'd be true
You said you'd always love me, to me you'd be true
Since you're gone, I'm down and blue

Now you're back, you want me again
Now you're back, you want me again
If I relent, I'll lose in the end

Chorus

I even tried religion, to get over you
I even tried religion, to get over you
But holy dualism, couldn't solve my schism

You got me trembling and shaking, you got me craving you
You got me trembling and shaking, you got me craving you
I'm in pain, I'm going insane

Chorus
