

## **A Trace (J. LeDoux)**

---

You left a trace, in my memory  
A permanent place, in my synaptic sea  
They say that time, heals all pain  
Time can't erase, your place in my brain

Days and nights, they were so fine  
Months and years, maybe sublime  
Time stood still, while it flew on by  
Time ended, when you said goodbye

You left a trace, in my memory  
A permanent place, in my synaptic sea  
They say that time, heals all pain  
Time can't erase, your place in my brain

You're a dominant trace, you won't erase  
You're a dominant trace, you won't erase  
You're a dominant trace, you won't erase  
You're a dominant trace, you can't be erased
